Learn and have fun at the same time – Nature observation and educational activity support

Park rangers are happy to offer explanations and answer questions on the lifestyles of birds in the park and the surrounding natural environment. Tokyo Port Wild Bird Park also offers observation programs with content tailored to specific requests for school field trips nature events conducted by local clubs (book in advance).

A place for volunteering

Tokyo Port Wild Bird Park is also a place where volunteers engage in such activities as environmental management, providing nature education to visitors, and managing events. The park is always accepting new volunteers.

Example of events include tours of the tidal pool and exploration tours of the park. Please contact the park for more information on event schedules and other information.

East Asian-Australasian Flyway Partnership

The East Asian-Australasian Flyway Partnership is an international project in which countries and NGOs from regions where the waterfowl of Japan and other nations migrate such as the U.S., Russia, China, South Korea, Southeast Asia, and Australia work together to promote the preservation of waterfowl and the wetlands which are their habitat. Tokyo Port Wild Bird Park, together with other areas such as Yatsu-higata, Osaka Nankou Bird Sanctuary, and the mouth of the Kuma River in Kumamoto Prefecture, participates in this partnership as an important habitat for sandpipers and plovers.
