## East Asian-Australasian Flyway Partnership

The East Asian-Australasian Flyway Partnership is an international project in which countries and NGOs from regions where the waterfowl of Japan and other nations migrate such as the U.S., Russia, China, South Korea, Southeast Asia, and Australia work together to promote the preservation of waterfowl and the wetlands which are their habitat. Tokyo Port Wild Bird Park, together with other areas such as Yatsu-higata, Osaka Nankou Bird Sanctuary, and the mouth of the Kuma River in Kumamoto Prefecture, participates in this partnership as an important habitat for sandpipers and plovers.
